

Dear Tracker Radio,

I am writing this for the youth hunter essay contest, and before I start writing I would like to thank you for having this contest for youth hunters and for taking the time to read my paper.

Well first my name is Daniel [REDACTED] and I live in Dixon Kentucky. I am a 10th grade student at Webster County High school. I have been coon hunting since January 1999, and I hunt bluetick coon hounds. I have hunted for about nine years and have owned several coon hounds. I have hunted with several people over the nine years I have hunted, but only hunted with them a couple of times. Mostly I hunt with my Dad, William [REDACTED] and my brother who is only eight and his name is Logan [REDACTED]. I hunt about two or three days a week. I hunt my two blutick coon hounds, and their names are 'PR [REDACTED] Blue Dixie and GRNitech PKC ch 'PR' Smokey river Blue Molly. The reason I am writing

This paper is to ask you all for a Tracker Classic Two dog system. I know I am already telling you what I want even though I haven't won, and there are several reasons why I believe I deserve this tracking system. Well to start off my family can't afford to buy a tracker, and I know that most people will probably say this. That is why I am going to tell you reasons why my parents can't afford a tracker. To begin both my Mom and Dad are injured and are disabled and can't work and have to feed three kids, twelve pets, and pay bills. My Dad has got Rheumatoid Arthritis which he has in his legs, arms, hands, knees, and etc. This also means that on certain day he can't hunt because he hurts so bad. Then my Mom had to have two back surgery's because of two herniated disc that had a tear. Then about two or three years ago in the month of January my Mom almost died. She had an aneurism bust in her head, and

she had to be life flighted to a hospital in Louisville Kentucky. There she had to spend two months in the intensive care unit in Nortons Hospital, and this meant that we also had to pay a huge hospital bill.

Although my family has been short on money my parents managed to buy me a Tracker Maxima 1000 with three collars as a gift. I loved the tracker and used it almost every night, because at this time I didn't have to hunt with anyone else because I had my own Tracker. But in the month of August and in the year 2007, we were robbed. We lost a dog box, hunting light, four-wheeler, shock collar, a generator, several dog leashes and collars, and my Tracker. My Moms window in her Van also got busted out. That night someone got in our garage and took all of our things and ever since that my family just couldn't afford to buy it back. Ever since that day my parents have tried in all kinds of way to get my Tracker back but they just

haven't had the money to buy me another tracker. Then when I seen this essay contest I thought it might be my chance to get another Tracker. The reason I said I would like to have a Tracker classic two dog system is because I have never owned one. But a buddy of mine had one he let me borrow and I got pretty good at using it. That is why I wrote this essay. At the end of these paper there is a copy of the police report were my tracker was taken. Now before I come to a end I had better tell you my contact information.
